

A close-up photograph of a wooden furniture corner. The corner is reinforced with a black, rounded cap. A silver metal fastener is visible on the black cap. The wood grain is clearly visible on the side and bottom surfaces.

Fit

Fit is a flexible and multifunctional range of shelving units that can be used as a convenient storage or partition system. Adaptable, stackable and customisable, Fit can be reconfigured to enhance a variety of different spaces and purposes. Whether you want to fit in or stand out, Fit is the perfect solution for all storage needs.
